

GG5204: STATISTICAL INFERENCE
Autumn 2020
Homework 1

Homework is due Thursday, November 10 at 11pm. You need to upload it to canvas assignments tab. Read Sections 6.1-6.4 and 7.1-7.8 of DeGroot and Schervish. You may find solutions to some problems in various sources, including solution manual for the textbook. I encourage you to solve the problems yourself rather than obtain solutions, homework is your most valuable tool in studying and preparing for the exams. As I mentioned previously, you may work in groups but do write up on your own and mention the people you collaborated with (no points will be taken off for collaboration as long as there is no evidence of copying).
